Cause

<u>Charge Number</u>	<u>Violation</u>
One	There is probable cause to believe that the offender violated supervised release mandatory condition that he shall not commit another federal, state, or local crime, in that the on February 11, 2008, he was arrested under California Vehicle Code - 23152(a) Driving Under the Influence and 23152(b) Driving with a 0.08% or Higher Blood Alcohol.

On February 11, 2008, a State Park Ranger observed the offender driving in the slow lane pass over the right hand white line delineating the slow lane from the shoulder. The vehicle swerved back onto the shoulder, nearly exiting the shoulder into the dirt. He also observed another vehicle in the fast lane drive out of the fast lane into the far left shoulder to avoid being hit by the offender. The Park Ranger initiated a traffic stop and contacted California Highway Patrol for assistance. The officers detected an odor of alcohol from the interior of the vehicle. The offender failed a series of pre-field sobriety test questions. The presence of ethyl alcohol was detected on serial #018466 with two weak breath samples given two minutes apart that were manually trapped. The results were .142% and .127%.

Evidence of this violation may be obtained in the California Highway Patrol Driving Under the Influence Arrest - Investigative Report #36850HQ, the Department of Parks and Recreation Supplemental report #282-001-835, and in the Santa Cruz Superior Court Docket #S227490.

On March 27, 2008, he pled nolo contendere and was sentenced to three days county jail with credit two days, enroll in and complete First Offender Drinking Driver Program for three months.

Patrick J. Sahli has completed 12 months of 36 months supervision. During this time, he has followed the instructions of this probation officer and has complied with all other conditions of supervision. He has re-established employment assisting a realtor agent in Carmel, CA. Mr. Sahli was very ashamed and humbled by what has transpired, especially by suffering the loss of his son by an alcohol related accident many years ago. The offender believes participating in community service through the Mother's Against Drunk Driving (MADD) organization, will help him in dealing with his loss and alcoholism. Therefore, this officer recommends that his conditions of supervised release be modified to include 100 hours of community service work, specifically at the MADD organization. The offender appears amenable to supervision and is aware that any future violation of this nature will result in further court action.
